

Is there an opportunity to see the application before going into the jot form?

Yes, the Special Accommodation Grant application is transcribed in Attachment J as part of the RFGA that is posted.

We have a preschool classroom with four children who will need the support. Do we need four applications?

No, multiple children can be included in a single application.

We have two children potentially with autism spectrum disorder who are getting assessed but do not yet have a diagnosis. But they do have a plan. Can they still qualify for support?

Yes, you can still apply for a Special Accommodation Grant if the identified children are currently being assessed for a diagnosis. You will have the opportunity to include this information in the SAG application when completing it.

Are the budget parameters for staff salaries set by the state or up to the provider?

The childcare program determines staff salaries. If the SAG application includes a salary that appears to be outside the regular budget range for the position, CDD has the right to follow up with the child care program for further information regarding the salary for the individual.
