Is there a list of practitioners you recommend available to provide consultation or training in your program?

What type of equipment or materials are allowable?

Adaptive equipment supports the child's inclusion in the program. For example, a child who uses a wheelchair cannot enter the childcare or a playground without a ramp.

Equipment or materials not covered by other means (such as the family's insurance or public school funds) are necessary for the child's inclusion in the classroom.

The following links have examples of assistive Technology Equipment and an article on adaptive equipment.

Can we have more than one person provide one-on-one support?

Does our program have to offer training to program staff?

One of the goals of this grant is to increase awareness around increasing inclusionary practices. The grant specifications require the program to provide inclusion training to the program staff (including the 1:1) or provide specific training that will meet the needs of the individual or children in care.

How long do we have to hire after we are awarded funds?

Programs must complete a [Request for Extension Form](#) at least 45 calendar days before the end of the grant. Funding will be approved at the State's discretion.
