1. Overview

1.1 Requests for Proposals (RFP)

The Vermont Department of Corrections (DOC) is requesting proposals for the provision of Community and Restorative Justice Services in the Orange County portion of the Hartford Probation and Parole District. Funding is available up to an annualized maximum of \$160,666 for a municipality or Vermont based non-profit organization located within the Hartford Probation and Parole (P&P) service area in Orange County. The anticipated grant period will be July 1, 2025, through June 30, 2027. An option to renew for up to two consecutive one-year periods will be based upon performance of grantee and available resources.

2. Scope of Work

The applicant is expected to deliver services built on restorative justice principles that utilize local volunteers and victim engagement efforts to address the impact of crime and provide opportunities for repair. Proposals must demonstrate an ability and corresponding plan to provide the following services:

- **Post-adjudication Reparative Panels**
- **Circles of Support and Accountability (COSA)**
- **Reentry Navigation**

Service delivery should reflect commitments to Diversity, Equity Inclusion, trauma-informed and gender-responsive practices.

Post-adjudication Reparative Panels

The grantee will provide reparative panels for cases referred by the Court as a sentencing condition with or without Probation, and/or referred by the Hartford Probation & Parole Office as a condition of Corrections supervision.

Process Steps of a Reparative Panel Meeting:

- Establish Common Ground
- All Understand the Impact of the Harm
- Responsible Party Accepts Responsibility
- All Develop a Collective Plan to Address the Harm

Reparative activities shall address each of the following goal areas:

- To learn about the impact of the crime on victims and the community.
- To repair the harm to the victim(s) when possible.
- To repair the harm to the community.
- To learn ways to avoid re-offense and understand community responsibility and obligations.

The goal is to complete the activities within a 90-day period after the initial panel meeting. If necessary, a 120-day period for completion is acceptable.

Circles of Support and Accountability (COSA)

Incarcerated individuals who are pending release to DOC community supervision during the grant period and assessed as moderate to high risk to reoffend will constitute the broad pool from which COSA referrals are chosen by DOC. COSAs should be reserved for core members presenting the highest levels of risk/need, including individuals convicted for sexual and/or violent offenses.

When a case is referred, grantee staff meet with prospective candidates and with DOC to identify supervision requirements, victim's needs, community issues and other concerns that need to be considered. Participation by the potential core member is voluntary.

If the case is accepted, grantee staff recruit volunteers to serve as the core member's COSA. The COSA includes at least three volunteers who commit to meeting regularly with the core member for at least one year. Volunteers are required to attend State approved COSA volunteer training prior to meeting with the core member.

Once established, the COSA volunteers may receive targeted training that reflects the specific needs and strengths of the core member, and if possible, meet with the potential core member at the correctional facility or video conference prior to their release.

The basic COSA operating structure is comprised of weekly team meetings with the core member and periodic larger group meetings to ensure the core member's progress with reintegration, compliance with reentry conditions and other expectations, to deal with changing conditions and new opportunities, and to keep community partners adequately informed. It is expected that the grantee COSA Coordinator communicate with the local P&P office at a minimum of once per week to provide and receive relevant case information. Any violations of release conditions, and any concerns regarding the behavior and/or attitudes of the core member are to be brought to the immediate attention of Probation and Parole.

Reentry Navigation

Reentry Navigation consists of providing enhanced community connections for formerly incarcerated individuals. This may include assistance with referrals to relevant service agencies, and resource identification within a community. It is intended to serve individuals for a short-term period with the greatest intensity during the first three months following the release from incarceration. Reentry navigation should not duplicate or supplant the case management services of the State. Grantee staff should apply effective relational approaches, integrate citizen volunteers, as appropriate, to assist with issues such as transportation and a variety of life skills. Navigation services provided to participating formerly incarcerated individuals may last up to one year.

The Budget:

Please provide a written budget narrative and an accompanying operating budget (using the attached Budget Template) that demonstrate how grant funds will be used to deliver the specific grant-funded services. Priority will be given to proposed budgets that maximize direct service staffing capacity.
